Dear Parents and Guardians,

As Zephyrhills Christian Academy continues to provide students with quality educational resources and technology necessary for academic instruction, we are implementing an Annual Technology Fee for all enrolled students beginning with the upcoming school year.

This fee will assist in covering the costs associated with:

- Student educational devices and technology usage
- Classroom instructional technology
- Educational software and online programs
- Network, internet, and security maintenance
- Device maintenance and upgrades
- Digital academic and testing requirements

Please be advised that this Technology Fee is:

- Annual
- Non-refundable
- Non-optional

Payment of this fee is required for student participation in classroom instruction involving school technology and devices. If the Technology Fee is not paid, your child will not be permitted to utilize the necessary devices and technology resources required for their education and coursework.

Technology has become an essential component of modern education, and this fee ensures that all students have continued access to the tools and systems needed for academic success.

Technology Fee Information:

- Elementary and Middle School Students: \$100
- High School Students: \$300*
- Due Date: August 21, 2026

*Any damages to devices will have additional fees.

We appreciate your cooperation, support, and commitment to your child's education at Zephyrhills Christian Academy.

Sincerely,

School Administration
Zephyrhills Christian Academy

Mission Statement To be a Christ centered academy that transforms lives through the power of the Gospel, Biblical discipleship and academic mastery. Raising up generations of students who passionately follow Jesus and have the courage and knowledge to impact the world for His Kingdom.
